

WHAT

A group of regionally hosted training seminars presented by TCS Basys Controls® in various cities throughout the US. The goal is to provide the training you need at a location "near" you. These special seminars are designed for everyone who sells, installs, or services TCS Basys Controls® thermostats, controllers, network devices, and software.

NOTE: The 2-day Basic Installation Seminar is a prerequisite for the 2-day Advanced Installer Seminar; however, you can sign up for both and take them back-to-back in a single week.

WHERE ---There are currently no regional seminars scheduled.---

CITY	Basic	Advanced
-----	-----	-----
-----	-----	-----
-----	-----	-----
-----	-----	-----
-----	-----	-----

TCS Basys Controls® will provide you with the following materials for you to keep:

- PI4000 -- USB Diagnostic Tool -- & other takeaway items
- Copy of TCS Insight™ software installed on attendee's laptop during the seminar
- Comprehensive training & reference manuals (printed copies)
- CD containing all training materials & our catalog
- Technical tips on installing, programming, & using TCS Basys Controls®

PLUS:

Introductory Seminar attendees receive an SZW133 wireless Superstat™ plus a QD1010 communication converter mounted on a sturdy powered display

Basic Installation Seminar attendees receive an installer kit** including a QD1010-USB communication converter plus an RTD simulator & temp. probe

Advanced Installer seminar attendees receive an installer kit** including a QW1010a wireless communication converter plus an RTD simulator & temp. probe

** Installer kit includes various cables used during installation & commissioning.

The registration deadline is approximately 1 month prior to each seminar's start date. For more information or to register, please contact our sales team via phone (800-288-9383) or email (sales@tcsbasys.com).

NOTE: In order to get the most benefit from the hands-on software training portion of the seminar, please bring a laptop PC with Wi-Fi or hard-wired Ethernet capability (wireless preferred). Ideally, the laptop should use Windows 95 or later, have a CD-ROM drive, and have at least one USB port.

DESCRIPTION

These seminars provide detailed technical training on how to install, configure, and use our products. Extensive visual aids and hands-on learning make these seminars a "must attend" for wholesalers, installers, contractors, and end users.
