

The single manual you would have been directed to has been replaced with a more comprehensive series of documents. These documents are tailored to specific aspects of the installation, setup, and configuration of your UbiquiSTATs – not every user needs every document; choose what you need for your situation!

Click on the links below to take you to the appropriate document:

- The [UbiquiSTAT Installation Manual](#) contains instructions on installing, powering, and wiring the UbiquiSTAT into Network or building's system.
- The [UbiquiSTAT Quick Setup Guide](#) contains instructions on the basic setup of the UbiquiSTAT.
- The [UbiquiSTAT Configuration Guide](#) contains instructions on configuring the UbiquiSTAT, the communications network, and other devices that may be connected to this controller.

Click [here](#) to take you back to the TCS Web Site.

If you have any questions regarding your UbiquiSTAT room controller, contact TCS Technical Support at 800.288.9383, ext. 2. Our Technical Support Department hours are Monday – Friday, 7:00 a.m. to 7:00 p.m. (CST).
