

Basic and Advanced 4-Day Installer Training Seminar

This training seminar provides detailed technical training on how to install, configure, and use our products. Extensive visual aids and hands-on learning make this seminar a “must attend” for resellers, installers, contractors, and end users.

TRAINING TOPICS INCLUDE:

- Basic and advanced controller training
- 2100 series controller tutorial
- TCS BACnet Controls training
- Wiring, installation, & site setup
- Programming & troubleshooting
- TCS Insight™ software tutorial
- Ubiquity Cloud™ (web-based building management) tutorial

Fall 2019

September 23rd – 26th

SEMINAR FEES:

4-Day Basic and Advanced Installer + BACnet – \$2,200.00* per person

**(plus sales tax for CA, FL, NC, WA, WI, & Canada)*

WHAT, WHERE & WHEN

What

A 4-day seminar hosted by TCS provides an overview of our hardware, software, and service offerings and a comprehensive, hands-on tutorial on the installation and setup of a building automation platform, including HVAC subsystems and BACnet. This special training seminar is designed for controls contractors or mechanical contractors who install simple or complex systems and/or service sites using TCS thermostats, controllers, network devices, and software.

NOTE: This course also includes extensive coverage of our UbiquiSTAT line of BACnet thermostats and the BACnet Manager in the Ubiquity Cloud enterprise energy management platform.

Where

Staybridge Suites Hotel
2916 Hardrock Rd,
Fitchburg, WI 53719

Note: Accommodations for five nights (*Sunday - Thursday*) are **included in the training cost**. The training will conclude by 5 p.m. on Thursday to allow for evening departing flights.

When

September 23 - 26, 2019

Monday - Thursday 8 a.m. - 5 p.m.

TCS provides the following materials to keep:

- PI4000 -- USB Diagnostic Tool -- & other takeaway items
- Copy of TCS Insight™ software installed on attendee laptops during the seminar
- Comprehensive training & reference manuals (printed copies)
- Technical tips on installing, programming, & using TCS products
- An installer kit including a QD1010b wireless communication converter plus an RTD simulator & temp. probe and various cables and wires
- US4050 UbiquiSTAT

Most meals are provided, including the hotel's complementary HOT BREAKFAST each morning. Lunch is provided by TCS each day during the training. On Monday, Tuesday and Thursday evenings, TCS hosts a cocktail hour and sit-down dinner for all of the Installer Seminar attendees and select TCS staff. Wednesday night you are free to explore the great dining and entertainment options in the greater Madison area.

The registration deadline is approximately 14 days prior to the seminar start date.

For more information or to register, please contact our sales team via phone (800-288-9383) or email: training@tcsbasys.com.

NOTE: In order to get the most benefit from the hands-on software training portion of the seminar, please bring a laptop PC with Wi-Fi. Ideally, the laptop should use Windows 7 or later and have at least one USB port.
