

The manual you were directed to has been replaced with a more comprehensive series of documents. These documents are tailored to specific aspects of the installation, setup, and configuration of your UbiquiSTATs.

**Click on the links below to take you to the appropriate document:**

- Refer to the [UbiquiSTAT Installation Manual](#) for instructions on installing, powering, and wiring the unit into your system.
- Refer to the [UbiquiSTAT Quick Setup Guide](#) for instructions on the basic setup of the device.
- Refer to the [UbiquiSTAT Configuration Guide](#) for instructions on configuring the device, the communications network, and other devices that may be connected to this controller.

Click [here](#) to take you back to the TCS Web Site.

**If you have any questions regarding your UbiquiSTAT room controller, contact TCS Technical Support at 800.288.9383, ext. 2. Our Technical Support Department hours are Monday – Friday, 7:00 a.m. to 7:00 p.m. (CST).**
